When you must be away from home—for vacation, business, or an emergency—you are naturally concerned about your pet's welfare. Here are 5 reasons why pet parents turn to **Distinctive Petsitting Inc. (DPI):**

1. DPI provides personalized in-home pet sitting services to the Vinings, Smyrna, Mableton, and Sandy Springs areas. Pet sitters tailor daily visits to your instructions.
2. Pets stay in their familiar environment, maintain normal routines, and feel more relaxed and reassured.
3. "Being a professional pet sitter is a 'labor of love' for all of us at DPI," says Lisa Howard, President. "Our team subscribes to the mantra, 'There's no place like home; we know it and our pets do too!'"
4. DPI supports animal welfare in the Atlanta community. This May, for example, DPI participated in an open house hosted by Cat Care of Vinings with Dr. Michael Friedlander and Good Mews Cat Shelter. Dr. Mike commented, "DPI is no longer a secret among pet owners who insist on quality, professionalism, and superior service."
5. DPI's dedicated pet sitters care about their industry and strive to be their professional best. Their skills, techniques, and expertise differentiate DPI from the competition.
